

TestCase

```
classDiagram
    class TestCase
    class GTestFilterUnitTest["gtest_filter_unittest.GTestFilterUnitTest"]
    GTestFilterUnitTest --|> TestCase
```

A UML class diagram showing an inheritance relationship. The base class is 'TestCase' in a box at the top. The derived class is 'gtest\_filter\_unittest.GTestFilterUnitTest' in a box at the bottom. A vertical arrow points from the bottom box to the top box, indicating that 'gtest\_filter\_unittest.GTestFilterUnitTest' inherits from 'TestCase'.

gtest\_filter\_unittest.GTestFilterUnitTest
